

# MOBILE STAND PRO

## Mobile base for a panel Mito Light Pro 150 y 300

The horizontal stand is perfect for placing on a bed or treatment table, allowing for treatment while lying down.

It features height adjustment to position it at the optimal distance from the body.

The horizontal stand for red light therapy is compatible with Mito Light Pro 150 and 300 panels. This stand is supplied with mounting brackets designed to fit only Mito Light Pro panels. We cannot guarantee that the supplied mounting brackets will fit red light panels from other manufacturers.
